## Heavy Duty Brake Pads for Hino 300, a vehicle that punches above it's weight

There are a lot of advantages of owning a Hino. Tested in some of Australia's harshest conditions the Hino 300 Series is built for work. With more power, torque, superior comfort and class leading safety including Vehicle Stability Control (VSC) it's important to fit quality brakes. Bendix Heavy Duty brake pads are built for performance, stability and durability.

Safety is paramount, Hino continue to develop a list of braking safety features including Vehicle Stability Control (VSC), four-wheel ventilated disc brakes, electronic brake force distribution (EBD), anti-lock braking (ABS). Look no further and fit quality Bendix Heavy Duty brake pads compatible with Hino's modern braking technology.

## Bendix Heavy Duty:

Offering a specifically developed friction compound to deliver reliable and stable performance across a range of load carrying situations and conditions from the hard grind of the construction site to the outback.

Bendix Heavy duty was made for work, with minimal fade and a consistent pedal feel, without compromising on rotor life delivered through a range of features;

- Blue Titanium Stripe means instant friction with no bedding-in
- Insulation layer creates cooler braking minimising fade and increasing pad life
- Noise absorbing Shims acting as a barrier to noise and vibration transfer
