PARTS ORDERING & TRACKING

TAKE A PHOTO

ADD SOME DETAIL

GET BACK TO IT

TRACK EVERYTHING

Don't spend your day chasing parts and waiting for calls back.

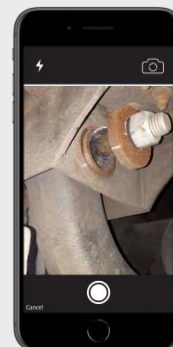

With TranzMate your staff can take a quick photo and post a query and then get back to their work. Our team will then do all the parts interpreting, with everything tracked and 100% transparent. You can even vet every purchase through your Head Office if you want to.

You'll see us working in real time on your request with notifications to your phone and we'll ask you follow up questions if required.

Everything live. Everything tracked. Free.

Perfect for fleets, workshops and owner drivers to help you manage 1 or 1,000 trucks.

Hi guys
I need a mount plate for this suspension

Hi mate,
No problem. Are there any ID tags on the hanger?

Sorry, no ID tags or stamps.
It's for adjusting the rear suspension.

I've done some digging and it's SAF AD123. The hanger is \$969.51 + from Melbourne, 2-3 days. Want to go ahead?

Sure do, PO VAM1135.

START USING TODAY

TranzMate by Tranzmile

Download in the App Store or call us to get started.

Meet the parts supplier you'll enjoy working with.

At Tranzmile we understand that your focus is on keeping your business moving. That is why we commit ourselves to providing the best level of customer service in the industry. Since we started Tranzmile in 2010 this has been our No 1 focus and remains so today. Our new Tranzmile Whites Diesels branches in Townsville, Gold Coast and Sydney are also bringing that same level of commitment to the European bus and truck markets.

Our Approach

1. Service 2. Systems 3. Inventory 4. Choice

We know you are busy and you need results. That is why our 4 pillars exist - to keep our focus on you and your business.

1. Service. Providing outstanding customer service is what we do. From a welcome when you walk through our door to ensuring you get the right part, at the right time, at the right price, outstanding customer service is everything. It's an attitude we love.

2. Systems. An essential key to providing you with outstanding customer service is great systems. That is why we have built TranzMate, Australia's No 1 fleet maintenance software. TranzMate provides you with instant, fully transparent and 100% reportable tracking and monitoring of all parts queries and sales. It enables your staff to work 24 x 7 logging requests and queries with our APP. You don't need to know part numbers - that is our job. Quite simply our systems ensure you get a better level of service.

3. Parts Availability. Getting the right part to you at the right time and importantly, at the right price, requires outstanding inventory levels and control. That is why across our eleven branches we hold one of the industry's biggest stockholding. As an organisation that encompasses both OEM and aftermarket businesses, we have stock breadth in our inventory and a national and international supply chain that is unparalleled in the industry.

4. Choice. We believe our customers would like a choice between genuine and aftermarket parts in most instances. We aim to give you that choice so you can get the parts that best suit your specific requirements, every time.
